STATISTICS AVAILABILITY

Documentation hereafter specified forms part of a “package” made available by Assocarta, whose annual cost is of € 340.00

A. ANNUAL REPORT	periodicity:	yearly
------------------	--------------	--------

The statistical review, annually updated, describes the trend of the sector in its main components, reporting the historical series of the most significant indicators of the Italian economy and the main variables of the sector: structural data, turnover, production (by sector), trade abroad (by sector and by origin/destination), and consumption (by sector) of paper and board, as well as some international comparisons. The data is accompanied by several comparison charts at European level.

B. CONJUNCTURAL NOTE	periodicity:	quarterly
----------------------	--------------	-----------

Such note is written at the end of a conjunctural inquiry realized by Assocarta on a significant sample of firms of the sector. Therefore, it shows most interesting results of same inquiry with reference to turnover, orders (in and out), portfolio consistency and trends (conjunctural and tendencial) of prices, as such as most important expectations of operators on short terms developments of market and relating analysis. It is also made a mention of most relevant results (both national and other european and worldwide most important partners) and external trade results, obtained from official source (ISTAT). Note is made more interesting by the presence of interesting colour graphics which makes it easier to read, along the time, with all variables object of same conjunctural inquiry.

C. PRODUCTION STATISTICS	periodicity:	monthly
--------------------------	--------------	---------

Elaborations realized by Assocarta on production figures made available by ISTAT (Italian Institute for Statistics) for single papers and boards grades.

D. EXTERNAL TRADE AND APPARENT CONSUMPTION STATISTICS	periodicity:	monthly
---	--------------	---------

On the basis of above mentioned production statistics (see point C) and of ones relating to external trade monthly made available by ISTAT, Assocarta prepares a table of external trade which reports – by aggregating similar products shared for comparts – imports and exports in quantity and value for current year and previous ones and a table of apparent consumption where are reported volumes of production, external trade and apparent consumption.

E. FIBROUS RAW MATERIALS QUOTATION TRENDS	periodicity:	monthly
---	--------------	---------

On the basis of official documentation, Assocarta monthly updates historical series for NBSK, NBHK and Paper for Recycling (1.02 and 1.05 quality) quotations. Tables containing such historical series, available on request since 1993, are completed by graphics which make it easier to follow relating trends.

Besides, with an adding amount of € 200.00, are also available:

F. EXTERNAL TRADE BOOKLET	periodicity:	monthly
---------------------------	--------------	---------

It reports a series of tables which, for groups of similar products, allows to get all provenances and destinations respectively of import and export flows. ISTAT source processed by Assocarta.

G. EXTERNAL TRADE BOOKLET – Fibrous Raw Materials	periodicity:	monthly
---	--------------	---------

It reports, for each position of C.N. chapter 47 (pulps and paper for recycling), import and export flows. ISTAT source processed by Assocarta.
